WORK EXPERİENCE

Software Developer

DABNET BILISIM	Feb 2024 - Present

- Contributed to the development of the company's software engineering best practices and standards,
- Optimized the performance and scalability of existing applications through code refactoring and database tuning
- Developed and maintained web and mobile applications using C#, .Net Core, MVC, Web API, Soap, Angular, JavaScript, HTML, CSS, jQuery, Ajax, Redis, RabbitMQ ,Docker,Linux and NodeJs.
- Specializing in municipalities and enterprise companies, I use NET Core and
- Oracle for backend development. These technologies provide efficient and scalable solutions for a variety of projects, allowing you to create robust applications that meet the customers' specific needs

Software Developer

CATS BILISIM	Feb-Agust 2023

- I have gained helping municipalities, cooperatives and companies by developing and testing software and improving customer communication. It also includes ERP technical services and establishing private networks for organizations, contributing to their growth and efficiency.
